- > Up to 8 handsets for 1 base station
- > Up to 4 bases for 1 handset
- > Pulse or tone dialling (country dependent)
- > GAP compliant
- > Standard batteries : 2 AAA NiMH

## TAM Features

- > More than 15 minutes recording time : user selectable
  - high quality
  - long capacity
- > High CS<sup>2</sup> quality audio
- > Date and time voice and display stamping
- > Conversation recording
- > Answer-only or answer & record
- > All controls from handset and base
- > Remote control via phone line
- > Pre-recorded outgoing messages
- > Call screening on Base and Handset
- > Incoming messages with caller name stamping

## Technical specifications

### Power Supply

Handset : 2 x AAA 1.2 V 550 mAh NiMH  
 Base : Input 1 : 8V DC / 250 mA  
 Input 2 : 6.5V AC / 95 mA

### Performance

- > 15 hours talk <sup>1</sup>
- > 10 days standby <sup>1</sup>

### LED indicators

Base : Line / power

### Handset Keys

- > Line > 2 Soft Keys > Up / down navigation keys
- > Cancel / Recall > Dialling keypad > Loudspeaker
- > Volume key > Least cost routing / prefix key
- > Intercom / Family Link key

### Icons

- > Battery level > Answering machine on > New message > Line / Internal call / musical mute
- > Silence > Loudspeaker > In range / Out of range
- > Identity withheld

**Radio RF power :** < 250 mW

### Range

Indoor : 50 m max indoor range <sup>2</sup>  
 Outdoor : 300 m max outdoor range <sup>2</sup>

### Compliance

- > ETS 300-329 > EN 60950 > CTR 6 > CTR 10
- > CTR 22

### Dimensions

Base : 150 x 123 x 81  
 Handset : 50 x 28 x 153  
 Charger : 77 x 76 x 92

### Weight

Base : 265 g  
 Handset : 120 g

### Temperature range

Operation : 0°C to + 40°C  
 Storage : -25°C to + 70°C

### Relative humidity

Operation : Up to 95 % at 40°C  
 Storage : Up to 95 % at 40°C

**Cabinet finishing :** Non-gloss

### Package contents

- > Handset > Base Station > Belt clip > 2 AAA NiMH batteries > Telecom line cord > Power adapter > User manual

<sup>1</sup> - Quoted talk and standby times with 2 AAA 600 mAh NiMH batteries

<sup>2</sup> - The quoted range is under ideal conditions, i.e. with no obstacles between the base and handset.

The range of DECT cordless telephones depend on :

- the environment in which the base station is located : thick walls, metallic window frames ect near the base will reduce the phone's range
- the presence of obstacles between the base station and handset : for example, when using a handset in the garden with the base station inside the house, the range may be reduced by the exterior wall of the house.
